**\*Enforcement of District Encroachment Regulation:**

-5020 White Tail, County PMTR2020-00553 has been finished for what looks like rough driveway, well and utilities. District was not notified of County Permit.

-5745 Silverado, county code enforcement action for early grading. Erosion control installed. owner expected to get county permit for further work. In recent road survey, noted extensive damage to the surface of Silverado. Appears to be deep trailer or equipment scrapes.

-5858 Black Tail, 015-144-015, President McCamy noted substantial grading activity, County has not issued a permit. GM Filed a complaint in February. County website now indicates code enforcement action in progress; CODE2022-00055.

**East end of Black Tail, the trail at the end of the road has been providing access to an undeveloped lot that is otherwise landlocked. This access is outside any District Right of Way. Someone, presumably the owner, appears to be illegally living in an RV or other structure. Related to the project at 5825 Black Tail, the access issues to the landlocked parcel(s) will need to be resolved, likely through use of a common driveway agreement. This will also likely result in an enforcement action regarding the person living on undeveloped property.**

Other information:

-5645 Forked Horn, owners Bill & Jordana Hug expected to submit permit application and fee for driveway approach improvements. Still nothing yet.

-Justin Sorrentino purchased a lot at 5685 Prancing Deer, wants to build.

All active permits have paid their permit fee of \$1,500.00 and have received a Letter of Acceptance from the District for the county permit staff.

1. **Monthly Road Evaluations:**

GM completed FEMA portal website, working on request for relief funding to cover the cost of emergency repair of the mud slide on GSH and repair the potholes on Mulberry that suddenly appeared.

Continue to develop ideas to repair the crib wall at Stag Hill, as well as a specific plan to do some repair/reinforcement work this summer. GM heard back from a colleague, Steve Kahn, who had additional thoughts. Rather than timbers or wood poles, it was suggested to use I-beams that might be available for less and easier to install. Any all suggestions are appreciated and will be considered.

**Recommendation:** Receive report and provide direction to staff regarding any current projects Or any needed or desired maintenance and/or repair work.

**Award of contracts for work should be done by motion, second and roll-call vote.**

*\*All award of contracts for work should be done by motion, second and roll call vote*

*\*It is the practice of the Board to form teams who annually conduct field surveys of the entire road system, including culverts and drainage ways within the GSCSD service area, followed by discussion and prioritization of repairs and/or improvements based on available funds. This process starts in October of each year with the objective of "short listing" proposed projects by the following January through March, weather permitting. After the surveys are complete, the teams compare notes and provide a proposed work schedule based on preliminary budget estimates and the combined results of the road surveys.*

**Director/Manager Comments:**

Has anyone got the lot appraised for a value?

**Adjournment**

A motion was made to adjourn the regular meeting by Director Wilcox, seconded by Director Martinson and passed by unanimous voice vote, 5-0. The meeting was adjourned at 7:50 p.m. The next regular meeting of the Board of Directors of the Ground Squirrel Hollow Community Services District will be held on Wednesday, April 12, at 7:00 p.m. via virtual Zoom meeting.
